News in Detail.St. Louis, April 18th.
The war department at Washington, April 12th, issued a call on State Governments for troops. Seventy-five thousand men were required. The Northern States responded, but the border States refused.

There is great excitement in the Northern cities. Companies are forming and offering their services to the Government.

Philadelphia, Boston, Baltimore, Chicago, and other cities, offer the Government money.

Danger is apprehended of an attack on Washington. Militia have been called out. The militia of Maryland offer their services. The public buildings and avenues are guarded at the Capitol.

Lincoln declares he will enforce the laws and repel the attack of the Confederate States' force by force.

All new regiments are required to take the oath to support the Government.

The excitement still increases at the North. Meetings are held in large towns and cities.

Men of all parties declare the Government shall be sustained.

Douglas reiterates fealty to the Union, and advises the people to remain true to their country and flag.

Secessionists were driven out of Baltimore or compelled to hoist the stars and stripes.

In Philadelphia the secessionists were threatened with hanging.

The U. S. Herald office was threatened and compelled to run up the American flag.

The war spirit at the South is increasing. Jeff Davis declares that seventy-thousand men of Lincoln's troops can't subdue the South.

Lincoln's proclamation is laughed at in the south, and Jeff Davis says he will march to Washington and take it in thirty days.

Southern banks offered loans, and companies are forming in all the seceding States.

The border States offer troops and money to the Confederate Government.

Gen. Howe offers to raise ten thousand men for the Southern army.

News of the surrender of Fort Sumter was received with excitement in the South. The people say they are ready for war.

President Jeff. Davis will take command at Pensacola.

The steamer Baltic from Charleston, arrived at New York on the 18th ult.

The Harriet Lane, Pawnee, and Pocahontas, with Major Anderson's party, have arrived at New York.

The Powhattan had not been at Charleston. The Pawnee had not arrived at Charleston until after the surrender of Fort Sumter.

During the whole time of the bombardment it was blowing a gale.

Major Anderson landed at the Battery. He was received by an immense crowd. The carriage was surrounded by people, who followed him to his house, where he joined his wife.

Capt. Doubleday gave a statement of the capture of the fort, and says the demand was made on the 11th, and was refused, not by Anderson, but by his command.

On Friday morning, at three o'clock, the rebels sent word to Fort Sumter that the fire would be opened in one hour. At four o'clock the fire opened in every direction, including hidden batteries.

Major Anderson's men took breakfast on salt pork and biscuits. His command was divided into three watches, and then went to work and opened fire on Fort Moultrie, Cummings' Point, and Morris Island.

Anderson's barracks caught fire, and were extinguished by the efforts of Hart, of New York, and Lyman, of the Baltimore volunteers.

On Saturday the officer's quarter caught fire from a shell, at the main gates, and were burned. The magazine was surrounded by fire. Ninety barrels of powder were taken out and thrown into the sea. When the magazine was encircled by fire, all their materials were cut off, and they had eaten their last biscuit two days before.

"We had to lay on the ground with handkerchiefs on our faces, to prevent smothering; a favorable, steady wind was all that saved our lives." The cartridge bags gave out, and firemen were engaged in the manufacture of them, out of their shirts, blankets, and shoes. It will take half a million of dollars to repair Sumter."

Most of the shots were aimed at the U. S. Flag. Wigfall demanded a surrender without authority. Anderson pulled down the flag, and afterwards, finding he had been sold, raised it again.

Hart, of New York, nailed the colors amid the deadly fire of the enemy and cheers of the United States troops.

Anderson's men, at New York, indignantly repelled the charge that he was unfaithful.

The reported seizure of Harper's Ferry by the State troops of Virginia was afterwards contradicted.

The Virginia Convention is still in secret session.

Reports to the New York papers say a secession ordinance had passed, and the State is mustering troops to defend itself from a Northern army.

Gov. Letcher replied to Secretary Cameron's demand for troops roughly, and says that Virginia will fight with the South.

Accounts from New York, Pennsylvania, Mas-

sachusetts and Maine, say that regiments are already on the way to Washington.

Troops are still pouring into Washington, and an attack is apprehended every hour.

The Cunard steamer Kedar has been chartered by Government. Also, the steamer Champion.

From the Sacramento Union we clip the following telegraphic news from St. Louis, on the morning of the 22d ult.:

The latest advices from Baltimore are to the effect that comparative quiet had been restored. Several railroad bridges leading into the city had been destroyed by the mob, to prevent soldiers from passing over them. The number killed in the riot on Friday, was eleven Baltimoreans and three Massachusetts soldiers; wounded, four citizens and eight soldiers. In reply to the request of Gov. Hicks, the President says that no more troops would be brought through Baltimore, provided that they are allowed to pass around the city without molestation. In reply to Governor Andrew's (of Massachusetts) dispatch, Mayor Brown, of Baltimore, replies:

"Owing to communications being stopped between here and Philadelphia, I cannot send the bodies of the men killed in the riot here, but shall endeavor to keep them subject to your order. I am one of our people viewed it as an invasion. The authorities exerted themselves to the utmost to prevent it, but it was impossible. When are these scenes to cease? Are we to have a war of sections? Governor claims the right to pay all expenses." Gov. Andrew replies: "I am overwhelmed with surprise that the peaceful American citizens on march over the highway to defend the common country, should be deemed aggressive to Baltimoreans."

On Saturday the largest Union meeting ever known in the country was held in New York. Business was entirely suspended, and the whole city turned out. Speeches were made by Robert J. Walker, Fernando Wood, John A. Dix, Senator Baker, Washington Hunt, John Cochrane, and many others. New York is a unit for the Union. The steamer State of Maine arrived in New York, from Norfolk, landing the Massachusetts regiment of Porter Monroe. She reports the Spaulding here landing the Boston regiments. The Fifth regiment and a company of Flying Artillery arrived here to-day; also a battalion of rifles. In six days Massachusetts has furnished five regiments of Infantry, a battalion of rifles and a company of flying artillery. Gov. Morgan has quashed all proceedings against Col. Corcoran of the Ninth regiment. It is reported that a large number of empty cars were run down from Alexandria into Virginia, Thursday night, with the intention of bringing up troops for the attack on the Capital. A gentleman from Washington reports from five to six thousand troops under arms, including two thousand regulars and four batteries of flying artillery. Colonel Smith is confident he can defend the city for the present, against any force that is likely to be brought against it. The same gentleman reports that a cavalry corps behind the last platoon of the Massachusetts regiment, caught a musket from one of the soldiers, and shot the latter in the back, killing him instantly. The order was immediately given to fire, and several of the mob were killed. District Attorney Smith has called on the Judge of the United States Circuit Court for a special jury to bring to justice parties sympathizing with the South in the city.

A Louisville husband, who had been truant to his wife, was caught by a friend of the injured woman, on the night of the 13th, in a perplexing predicament. The time that might be spent at home, it is said, is passed in dalliance with a fair, frail woman, who has won him from home. A relative of the wife, at her instance, visited the fancied security, and demanded audaciously: "and female friend gave the alarm, and the husband fled trembling and in haste, for a guilty conscience makes cowards, as W. Shakespeare remarks. He was divested of his clothing, but, nevertheless, preferred the night air to meeting the indignant relative. He escaped and hid in a lot adjoining, and his pursuer being baffled, returned and carried away his clothing, and delivered them to his wife. But this must have been poor consolation, for what is a husband's clothing to a woman if the husband isn't in them?"

President Lincoln is going to come out with a dashing "team." Mr. Wood, the gentleman who engineered the President on his late trip as far as Harrisburg, has just bought him a span for \$2000, from Wm. H. Van Cott, of Victor, N. H. The horses are sixteen and a half hands high, six years old, a beautiful dark brown in color, with tan noses, bowing tails, well matched, and altogether a very stylish and attractive team.

The Savannah Republican of April 7th has the following: "Under the tariff of the United States, which is our standard, ale in barrels is a contraband article, and we suppose likewise is 'lager.' The supply of the former gave out yesterday, and we learn that ale drinkers were in great distress thereat."

Dr. E. J. Fountain, of Davenport, Iowa, recently died a martyr to science. He had been experimenting with chlorate of potash as a cure for consumption, and dosed himself fatally with it at last.

The small-pox is committing fearful ravages in Philadelphia, and is on the increase. It is also prevalent in New York, 16 deaths having occurred from the loathsome disease last week.

CALIFORNIA.

SAN FRANCISCO, April 29th.
E. W. Church, of the banking firm of Sather & Church, died at midnight. His disease was typhoid fever. Church had been engaged in the banking business here during the last ten years.

To-day Barton Michel, a native of Piedmont, jumped from a third story window of Keessing's building during a fit of insanity. The force of his fall was partially broken by the zinc awning. His injuries are not very serious.

Adams and Corbet were held for trial on a charge of manslaughter, by causing the death of the son of Mathewson by reckless driving.

The stern of a small schooner came ashore at North Beach last night. The name was not distinguishable.

Twenty-five members of the Independent National Guards have made a tender of their services to General Sumner, in the event of any necessity for additional troops in the fort. Citizens visit the fort daily, and readily obtain admission to inspect the works. The large guns formerly ranged on the plateau above the fort, have been removed so as to command the land side.

Exchange on New York by the next steamer is five per cent. Much apprehension seems to be felt that the steamers with California treasure will fall prizes to the Southern Confederacy privateers.

The Board of Supervisors to-night elected A. M. Ebbetts County Recorder, in the place of Beckh. The Board resolved that their unanimous sentiment is in favor of the Government, and a Committee was appointed to prepare Union Resolutions. Several were made. The Com. Resolutions reported against the proposition to take \$300,000 stock in the railroad, on the ground that the provision of the Act of the Legislature authorizing the subscription is unconstitutional.

SAN FRANCISCO, May 1st.
The mint was on fire yesterday. No loss. The mint will be closed a short time; specie scarce.

MARKETS.—Very large sales of wheat and flour at previous rates—wheat, \$1 40; \$1 85; flour, average prices \$4 70; \$5 25.

In a political discussion at Watsonville, May 1, Edward Crane was stabbed and instantly killed by Edward Head.

OREGON.

We take the following from the Portland Advertiser. Dates are to the 11th inst:

TELEGRAPHIC DISPATCH.—A telegraphic dis-

patch has been received by Ladd & Tilton, bankers of this city, by stage of Friday night, dated San Francisco, 28th April, which reads as follows: "Privateering going on—steamer in danger—exchange high."

A large Union meeting was held at Portland on the 6th.

DROWNED.—We regret to learn that Mrs. Black, wife of S. M. Black, formerly of Butteville, was drowned recently while crossing the Umatilla river. She was with her husband and a young child, in a wagon. The water was so high at the crossing as to float off the bed of the wagon. Mr. Black succeeded in saving his child, but his efforts were unavailing to rescue his wife.

FIRE.—A carpenter's shop was destroyed by fire on the 7th.

WASHINGTON TERRITORY.

APPOINTMENTS TO OFFICE.—A letter received in Portland last Friday night, 3d inst., by Pony Express from the East, gives the information that Col. W. H. Wallace, of Washington Territory, has been appointed Governor; Mr. Francis, of the Oregonian, Superintendent of Indian Affairs, and Dr. Henry, of Yamhill, Surveyor-General of Washington Territory. Col. W. H. Wallace, of Salem, Superintendent of Indian Affairs, and Mr. Pengra, Surveyor-General for Oregon. We learn that B. F. Kendall, Esq., has received the appointment of Chief Justice of this Territory.—Puyget Sound Herald.

Acting-Governor McGill, of Washington Territory, issues a proclamation calling upon "all citizens of the Territory, capable of bearing arms and liable to militia duty to report immediately to the Adjutant-General of the Territory," in order that they may hold themselves in readiness to meet any requisition from the President of the United States or the Governor of the Territory to aid in "maintaining the laws and integrity of the nation."

CHINA AND JAPAN.

By way of San Francisco we have the following from China:

On the 4th of February, Mr. Rutherford Alcock, H. B. M.'s Minister Plenipotentiary to Japan, addressed a letter to the British Mercantile community at Yokohama, stating that he, with his colleagues, the representatives of France and the Netherlands, had withdrawn temporarily from the Japanese capital pending further communications with the government, "for the better security of right and property in the country," which were considered unsafe on account of political disturbances.

The Hongkong Press is very severe upon Mr. Alcock for his conduct in this affair. It seems that he endeavored to induce Mr. Harris, the American Minister, to follow his example, and also withdraw. But that gentleman declined to act in concert with his colleagues, and in a letter to Mr. Alcock very forcibly pointed out the mistaken ideas upon which the Ministers of England, France and the Netherlands had based their withdrawal. For reasons which he adduced, he deprecated the action of his colleagues; expressing his belief that it would be productive of evil instead of good, and reminding them that the people of Japan cannot be raised to our standard of civilization by the stroke of a diplomatic pen, nor even if they have 50,000 soldiers for a schoolmaster."

The consequence is that Mr. Alcock has drawn upon himself the ridicule and contempt of the English merchants in Japan and China, and the newspapers are unparagoning in their denunciations of Mr. Alcock and the companions of his inglorious flight, while they highly commend the wise course pursued by Mr. Harris, the American Minister. Through his remaining at Yeddo, the other Ministers have been recalled there, and the evil consequences of their hasty and abrupt flight neutralized.

Had been received. Here everything was progressing amicably. An imperial edict had called a Foreign Board on the 23d ult., under the management, it was reported, of Prince Kung and Kweliang, and all communications from foreign ministers were to be seen by the Emperor himself.

Nankin had been recaptured by the Imperialists, and was again besieged by the insurgents. The rebels had given orders for eighteen churches to be built in Nankin.

The news of the murder of British merchants at Jeddo, which was published in the North China Herald, is pronounced a coward.

HOLLOWAY'S PILLS correct depraved or superabundant bile, prevent flatulency, cleanse the liver, strengthen the stomach, sharpen the appetite, give increased vitality and firmness to the nervous system. The extraordinary daily sale of these invaluable Pills in all parts of the globe, is a sufficient proof of the high estimation in which they are generally held. It is now, indeed, universally admitted, that there is no other medicine which can be compared with these for mildness, combined with power. These Pills may be taken freely without danger, and with unbounded confidence in their salutary properties. There is really no medicine in existence equal to Holloway's Pills for removing most of the diseases which are incidental to the human race.

The Poor "Press."

The poor Press cuts a sorry figure, indeed, in its yesterday's issue. It reminds one of the old adage that "an evil course will sooner or later terminate disastrously." Were we allowed to utter a prediction we should naturally say that the Press is not long for this world. Unfortunately, it has waded out so far, and has got into such deep water, that it has lost all foothold, and in its expiring struggle is catching at straws, with the tall tales hope of being buoyed up and providentially saved. The more it splashes, however, the weaker the concern gets, and some fine morning it will be our painful duty to do the same for it as we have done for all its illustrious predecessors. Under our local obituary there will then probably be found an item: "Died, yesterday, the Press, after suffering severely from chronic cacothesis scribendi, combined with a severe chest affection, the latter supposed to be produced by a cool reception from the public. Its diseases had become so firmly seated in its constitution that it was impossible to eradicate them. Some suspicious exist that it hastened the unavoidable termination of its career by suicide."

We really pity the Press. We pity any one who is so unfortunate. But if newspapers are conducted without regard to principle, we see no help for it, but to meet their doom. The nonsense in the leading article in yesterday's Press will not go down here. It reads very much like extracts from the "headless Gazette." We are told that we are "a miserable government hack," "a government whisperer," and that we dare not speak out "for the sake of government obligations." This is news indeed!

Our independent position is too well known here to require us to waste our space on "government obligations," we are under none, except those which every law-abiding citizen is bound to render to the government under which he lives. How the shoe pinches the Press is simply this:—It was started in the hope of living off the government. But government having no confidence in so worthless, shiftless, and uninfluential a concern, has spurned its advances. Mr. Cary, perhaps, may be the only obstructive who affords generous favors to the Press. Some imagine it has some such reason for dealing so sugarly with him.

The opposition of the Press to the grabbing of the Springs is not honest. It wants to catch at a straw in its sinking condition. Therefore it talks of "forcibly coming before the British Government," and "a Cromwellian treatment." Such a course would play exactly into Mr. Attorney-General Cary's law-prosecuting hands. Our course is the contrary. We advocate reform, not revolution. Order, not disorder. In our first number we stated our position in the following words: "We shall be found on the side of law and order. Constitutional means, and constitutional means only, shall receive our support." We still adhere to the same doctrines. In the aggravated attempt to make the Springs private property, we have boldly and fearlessly held up the aggressors to public condemnation; opposed the attempt before the Press began; and in no way spared the Government for not taking summary measures to assert the right of the public to the Springs. Yet we care as little for an obstructive Government as we do for an expiring Press.

The News.

No doubt now exists but the demon of civil war has been let loose in the neighboring Republic. First came sectional hostility; then secession; next seizure of Federal property; afterwards the bombardment and capture of Sumpter; and lastly the mail brings the news of the fall of Fort Pickens into the hands of the rebels. Everything shows that the Secessionists intend to wage a war of independence. Among the Border States they are evidently gaining strength. Tennessee, at one time supposed to be for the Union, is now sending volunteers South. Missouri is intensely excited, and opposed to the Union. Virginia has published her secession ordinance. The only Border States really for the Union are the States of Delaware and North Carolina. In Delaware, soldiers are recruiting for the Federal Government. Kentucky proposes to remain neutral; whilst Maryland holds a very doubtful position, her chief city being hostile to the Federal Government. The whole of the

Free States appear united in their purpose to maintain the Union. The opposing heads of the Democratic and Republican parties, Douglas and Seward, are both working unitedly for the same purpose. Party is daily becoming of less importance. So President Lincoln may count for the present on an united North to back him in blockading the Secessionist ports. The Montgomery cabinet are, however, not less active than at Washington. President Davis, it is said, will attack Washington. If that city be taken during the summer campaign, it is not unlikely that Maryland will give in her adhesion to the Southern Confederacy. The Cotton States are evidently working for that object, and to gain over the other Border States. The occupation of all the Southern fortresses, and the capture of Pickens and Sumpter, clears the South of Federal defences. So with the fall of Washington only the Southern ports would be open to blockade. Matters have gone so far, that a decisive battle is likely to occur; and the gathering of Federal forces at Washington, indicates that that neighborhood is likely to be the battle ground.

The chief hopes of the Secessionists must rest on a successful summer campaign. If they fail in that their chances of success are anything but probable. The news from the States for the next sixty days will be of much interest. During that period the policy of both Lincoln and Davis are likely to take a practical shape. From the South there must come an aggressive war policy; from the North, a defensive line of action. We look anxiously then to see the development of the war policy of the Northern and Southern Confederacies.

A BAD STATE OF AFFAIRS.—The Portland Advertiser says:

A telegraph dispatch to the Marysville Appeal from San Francisco, informs us that private advices had been received there by prominent houses, to ship no treasure on the 1st proximo. Insurance offices refuse to take the war risk. It is suggested to put treasure aboard English steamers at Panama, and ship via England. It was estimated that the ensuing shipment would not exceed \$400,000. Bankers were charging 5 per cent., and many sell no exchange. Dispatches from New York to the 10th, say insurance is suspended, and privateers are at work.

The above does not look as if the Pacific States have nothing to do with the secession quarrel, and should remain neutral. The cowardly advice given by some of the California journals to their readers, to take no part in the war, cannot be followed. The interests of the commercial classes will be so much damaged by the deplorable rebellion, that they will finally be compelled to show their hands either on one side or the other.

SUPPLEMENT TO THE DAILY BRITISH COLONIST.

VICTORIA, V. I., WEDNESDAY, MAY 15, 1861.

Arrival of the Eliza Anderson Progress of Secession! Great Riot in Baltimore! CANADIANS VOLUNTEERING! Fort Pickens Taken!

ETC., - - - - - ETC., - - - - - ETC.

The U. S. Mail Steamer Eliza Anderson arrived at 10 o'clock yesterday morning. She brings 11 days later news from the States:

CARSON CITY, May 1.
The pony Express has just arrived with dispatches to the Union.

ST. LOUIS, April 22.
The President issued his proclamation on the 18th of April, stating that there was insurrection against the Government in several States, that laws for collection of revenue cannot be executed, conforming to instructions which require duties throughout the country to be uniform. That States had threatened to grant pretended letters of marque therefor. The President deemed it advisable to set on foot a blockade of ports, which will be posted to prevent the entrance or exit of vessels from ports of the seceding States.

War feeling in Canada is aroused and, six hundred men from Quebec and Montreal are coming to Boston to enlist in the United States service.

Lieut. Jones, commandant at Harper's Ferry, hearing that fifteen hundred Virginia troops were marching against him, set fire to the arms and buildings, which were all burned up.

At Richmond, several Northern men were threatened, and had a narrow escape from hanging.

Sherrard Clemens was held as prisoner. Commodore Paulding says the Gosport Navy Yard can be held against ten thousand men.

There has been a great riot at Baltimore; the Massachusetts regiments, on their way to Washington, were attacked by a mob, who threw stones and discharged pistols at them. Soldiers fired on the mob, killing several. Three soldiers were killed, and several wounded. The mob increased, and the Mayor tried to stop the riot. After several hours of fighting, the mob was dispersed. Martial law was proclaimed. The citizens of Baltimore and vicinity destroyed the bridges and railroad tracks.

The dead bodies of the Massachusetts soldiers were sent home for burial.

Gov. Hicks informs the President that no more troops can pass through Maryland, except only, for the defence of the Capitol.

The N. Y. Evening Post learns that Jeff Davis, at the head of the Confederate Army, was marching toward Washington, and there was great excitement North in consequence.

More new companies are being raised. Washington is filling with soldiers. Regiments are being raised in Tennessee for the Southern Army. The feeling is intense for secession.

Philadelphia dispatches state that the President will call for additional troops from Northern States to make up deficiency caused by the refusal to furnish their quota by the border States.

A party of armed workmen left Baltimore to-day to repair bridges on the Baltimore and Ohio railroad.

It is reported that Trimble, the former President of the road, was shot by a man when attempting to defend the property of the road.

The police seized a quantity of contraband goods for the South. Parties will be arrested and tried for treason.

It is reported that Baltimoreans had demanded the surrender of Fort Mifflin, and threatened an attack on it. The commander replied that he would be compelled to defend it, and would fire on the city.

There was a great Union meeting in New York, on Saturday. This whole city was out with great enthusiasm. Major Anderson attended. Speeches were made by John A. Dix, Hamilton Fish, Havens, Grinnell and others.

At Wilmington, Delaware, the enlistment goes on at the rate of 70 to 100 per day. Delaware will send her full quota of troops. The secession paper of Wilmington, Delaware, was compelled to hoist the American flag.

The New York (Saturday's) Tribune says orders were received from Gov. Letcher to seize the custom house at Wheeling, but the Wheeling Union men are strong. It was guarded last night by the Mayor. Citizens were greatly excited by the news, and they declare that they will stand by the stars and stripes.

The same dispatch says Harper's Ferry is occupied by three hundred men. The wildest enthusiasm prevails.

Gov. Morgan, of New York, has ordered the 6th, 12th and 71st regiments to go to Washington by steamer, unless railroad communication is opened.

Private dispatches from Baltimore say that the Union men there had no hope unless government occupies the city with overwhelming force.

The Pacific Mail Steamship Company has supplied their vessels with cannon, muskets, cutlasses and ammunition to secure the protection of passengers and treasure.

Orders went out some time since to sheath their boats with iron, so as to enable them to run down the privateers or pirates, which may attack them.

The Washington Star says an attack on Washington with such means as assassins

can have would be a simple sacrifice of their lives.

Advices from Norfolk report that the frigate Merrimac is getting her armament aboard with all possible dispatch.

A sword from the citizens of Taunton, Mass., was presented to Major Anderson.

Great excitement prevails throughout the towns of Missouri; secession flags are hoisted and the agents of government are threatened with hanging.

The Union men of Delaware are in a bad fix; the population is largely Union, but the State arms are in the possession of the secessionists.

The Governor of Missouri had called the Legislature to assemble on the second of May. State troops are to be mustered into service.

The Governor of Kentucky is trying to get the banks to loan half a million of dollars to arm the State for defense. The State will remain neutral.

It is said that the ordinance of secession was proclaimed at Richmond on Friday. All the Confederate troops were taken at Charleston and New Orleans.

The news of secession caused great excitement at Charleston. The venerable Edward Ruffin fired an old secession gun.

Sacramento, May 6th, 1861.
The Portsmouth Transcript of Tuesday says dispatches received that night say that Fort Pickens was taken by the Southern troops with a loss of 2500 men.

Arrangements were made to carry troops from Charleston to Richmond; 2000 men were on their way.

A gentleman from Washington, via Relay House, reported that the secessionists had planted a battery of four guns at Harper's Ferry, commanding the bridge.

Trains are stopped and examined, and all the roads are lined with soldiers.

Pennsylvania money is being exchanged for gold and silver.

The election progresses quietly. No opposition is made to the States' right ticket.

The schooner Lucas was fired into in Chesapeake Bay by two schooners, which had no colors, but escaped.

Andrew Talliot, of the U. S. Engineers, a native of Connecticut, has gone to Richmond to attend to the manufacture of arms, to be used by the Confederate Government.

The N. Y. Union Committee has purchased sixteen rifle cannon for the use of the volunteers.

Engraved notes and bonds for the Confederate States have been seized in two bank note engraving establishments in Wall st.

At Wheeling, a strong Union feeling prevails; 2500 men were under arms.

All is quiet at Baltimore. All the wholesale houses are closed, and all the clerks over fourteen years of age were required to enlist. Many are leaving in consequence. Five cars arrived at Chambersburg filled with families from Baltimore.

Privateering is going on.

A Simile.

EDITOR BRITISH COLONIST.—Since the superior classes still continue to lavish their indignation on the conduct of the water-carriers, and on that meeting of the common laboring classes, which endorsed it, I will offer the public a simile.

As landholder in Victoria, I enjoy a two thousandth share, or thereabouts, in the Church Reserve, the Springs and other public property; and as the Bishop has taken up the Church Reserve, the Attorney General the Springs, and nothing else is left, I have made up my mind (and why not?) to jump the church. In saying this, I wish to do nothing irreverent. I respect public feeling as much as any body, and

"Be it far from me

To treat such things with levity."

I am aware that the church, (like the Reserve and the Springs,) has belonged to the public for a long while; but when I see prominent people setting the example, I do think I have quite as much right as they have, to try and turn an honest penny to account also. Besides, a friend of mine, an old settler, offers, for a handsome consideration, to get me, somehow or other, a title, and as to public opinion, when my private interests, or those of the business I carry on, are concerned, it is quite a different matter.

I intend, therefore, on Saturday, to have the Church door well fenced in and barricaded, taking care at the same time not to say a word about it, or giving any public notice. On Sunday, the fence will have been up exactly one day, and when the Congregation arrive at church, and my agent tells them not to enter, that I am in possession, and that they must first go to law, if the sexton and the congregation very naturally and indignantly pull down the fence,—why, the water-carriers did no worse.

tried to get it from me. Held the pick for half a minute, and then was forced to let it go. Five or six of the watermen were there. The watermen encouraged Montrose in tearing down the fence. He tore down a section as long as this Court-room. Gave no liberty to any one to take water. The fence torn down was worth 5s. and upwards.

Cross-examined for the defence.—Was in a good humor all the time, Montrose waited until the watermen came up before he used the pick. The fence blocked up one road pretty well. Q.—Did you walk about with the air of an officer? A.—No sir. Q.—Did you say you were an officer? A.—No; I had no baton. Q.—But you had the strut and gait of an officer, with your coat buttoned up? A.—Yes, my coat was buttoned up, and yours would have been too, if you'd lain out doors all night. [laughter]

Mr. Cochrane recalled.—The value of the fencing torn down would be 12 cents a foot. Think it would be worth 5s. and upwards.

Mr. Ring submitted that the prosecution had made out no case against the accused; the springs were public property, and in taking possession of them Mr. Montrose had done no more than right. The Hudson Bay Company reserved the privilege of draining water from the springs, and the road to it was obstructed; so Mr. Montrose very properly knocked the fence down.

Mr. McKnight replied that the spring in question was not the one in dispute. The right to the water is vested in the public, and Mr. Cochrane can show no better title to them. The case must go to another court, as it is a question of title.

Mr. McKnight quoted authority to show that the case could be settled in the Police Court. Mr. Cochrane pays for the water; puts up a fence, and it is torn down and burned. There is no evidence of a public right to the property; the public were only allowed to take water therefrom.

Mr. Ring believed that Mr. Cochrane was the true trespasser; he came with his hammers and his men, put up a fence and stops the right of way.

Mr. Pemberton would like to be satisfied as to the object the accused had in view while tearing down the fence. The Court felt a sympathy with the public in this water question, but it wished to have the matter thoroughly investigated in order to arrive at a hint that if the party accused would throw out his costs and damages, it was within the power of the justice to discharge him.

Mr. Ring would not consent to such an arrangement.

Mr. Pemberton continued, that while his sympathy was with the public, still the property had been taken possession of in a forcible and illegal manner. He would postpone the case in order to give the counsel opportunity to arrive at a compromise, if possible.

Mr. Ring said he trusted the Court would mulct the prosecution in costs and expenses, and pay the watermen for the trouble they had been to in waiting at the Springs on account of the fence.

The Court was then adjourned till Wednesday, at 11 o'clock.

THE BRITISH COLONIST

Wednesday Morning, May 15, 1861.

Police Court.

TUESDAY, May 14, 1861.

The Court met at 11 o'clock, A. F. Pemberton, Esq., stipendiary magistrate, on the bench.

THE LOWENBERG CASE.—His honor said that he had arrived at the conclusion that he could not require bonds to keep the peace, owing to no person having come forward and sworn that he was in bodily fear of him. Mr. L. was consequently discharged.

THE WATER CASE.

John B. Montrose, defended by Mr. Ring and Mr. Pearkes, appeared to answer a charge of having torn down the Cochran-Cary fence at the Springs last week. Mr. McCraith appeared for the prosecution.

John B. Cochran, sworn—1 bought the Springs from the Hudson Bay Company on the 16th of last March; commenced fencing them in on the 7th inst., and finished the fence the same evening. Know Mr. Montrose? never authorized him to take water from the Springs. Caused a notice to be posted up that water was for sale at one bit a load. Believe Mr. Montrose is a carpenter. The Springs are generally known as the Hudson Bay Company's Springs. After the 7th inst. I allowed no one to take water from them without paying for it. Put a man named Baker in charge to prevent trespassers on the 7th inst. That was the second time; about a week before that he was placed in charge first. Sent him out to tell the watermen that it was my property, the first time. Know nothing more about the Springs to my own personal knowledge.

Cross-examined for the defence.—Mr. Cary is my partner in the Springs. Q. Previously to this period did you not know that the public exercised a "supposed" right over the property. A. Not the public, but the watermen [a laugh]. The people paid for the water. Q. How do you know that? A. Because I paid for it and I am one of the people; I don't know whether I paid for the carriage of the water or for the water.

Mr. Ring submitted a deed of conveyance from the Hudson Bay Co. to John J. Cochran of the Springs, which was read by the Clerk. The deed reserves an entrance way for the Company to one of the wells, and stipulates that they are to have the privilege of taking such water as they may from time to time require; the purchase money was \$7,000.

Witness, continuing.—Some of the watermen asserted to me that they had a right to the water. I thought then of asserting my private right immediately afterwards. One of the watermen consented to recognize my right. Believe none of the watermen paid. About 100 or 120 feet were fenced. That embraced the whole Springs. I ordered a gate of entrance. The fence was destroyed in a very summary manner. I am the person who managed all about the water.

To the Court—Have received no other deed. Q. Were you put in legal possession of the property? A. I don't know what that means; the deed is a contract, and is the usual mode of conveyance; have received no other deed than this. Q. You state in your evidence that the property was conveyed to you; this seems merely an agreement to convey. What is your explanation? A. I mean that I have paid a certain sum of money and am to pay a certain other sum; in the meantime I am to have possession of the property; I understand that this is a deed of conveyance.

Mr. McCraith said that possession in this country was taken and given by that mode.

Witness, continuing.—I paid \$700 of the purchase money down. Did not think it necessary to inform the public that I had taken possession of the property.

Adam Baker, sworn.—Was placed in charge of the Springs by Mr. Cochran, about the first of this month. There was a house there, but I did not go into it. The watermen came and took the water, and in less than twenty-four hours I returned to town. I forbid them taking the water. Mr. Cochran gave me orders that if they took water by force I was to come back and let him know. Remember a fence being erected around the Springs on the 7th inst. It was a board fence with a gate wide enough for a cart to get through. Montrose came on the same evening the fence was completed. He commenced breaking down the fence the next morning with a pick. I took hold of the handle of the pick to stop him. He tried to get it from me. Held the pick for half a minute, and then was forced to let go. Five or six of the watermen were there. The watermen encouraged Montrose in tearing down the fence. He tore down a section as long as this Court-room. Gave no liberty to any one to take water. The fence torn down was worth 5s. and upwards.

Cross-examined for the defence.—Was in a good humor all the time, Montrose waited until the watermen came up before he used the pick. The fence blocked up one road pretty well. Q.—Did you walk about with the air of an officer? A.—No sir. Q.—Did you say you were an officer? A.—No; I had no baton. Q.—But you had the strut and gait of an officer, with your coat buttoned up? A.—Yes, my coat was buttoned up, and yours would have been too, if you'd lain out doors all night. [laughter]

Mr. Cochran resumed.—The value of the fencing torn down would be 12 cents a foot. Think it would be worth 5s. and upwards.

Mr. Ring submitted that the prosecution had made out no case against the accused; the springs were public property, and in taking possession of them Mr. Montrose had done no more than right. The Hudson Bay Company reserved the privilege of drawing water from the springs, and the road to it was obstructed; so Mr. Montrose very properly knocked the fence down.

Mr. McCraith replied that the spring in question was not the one in dispute. The right to the water is vested in the public, and Mr. Cochran can show no better title to them. The case must go to another court, as it is a question of title.

Mr. McCraith quoted authority to show that the case could be settled in the Police Court. Mr. Cochran pays for the water; puts up a fence, and it is torn down and burned. There is no evidence of a public right to the property; the public were only allowed to take water therefrom.

Mr. Ring believed that Mr. Cochran was the true trespasser; he came with his hammers and his men, puts up a fence and stops the right of way.

Mr. Pemberton would like to be satisfied as to the object the accused had in view while tearing down the fence. The Court felt a sympathy with the public in this water question, but it wished to have the matter thoroughly investigated in order to arrive at a decision. At the same time he would throw out a hint that if the party accused would pay costs and damages, it was within the power of the justice to discharge him.

Mr. Ring would not consent to such an arrangement.

Mr. Pemberton continued, that while his sympathy was with the public, still the property had been taken possession of in a forcible and illegal manner. He would postpone the case in order to give the counsel opportunity to arrive at a compromise, if possible.

Mr. Ring said he trusted the Court would mulct the prosecution in costs and expenses, and pay the watermen for the trouble they had been to in waiting at the Springs on account of the fence.

The Court was then adjourned till Wednesday, at 11 o'clock.

SUPPLEMENT.—Accompanying this number of the Colonist is a supplement containing the news taken from our Extra of yesterday. This is given in addition to our regular quantity of matter, in order to make room for additional intelligence in our regular edition.

THE "LABOUCHERE."—This steamer cleared yesterday for the Northwest Coast. She has on board over \$11,000 worth of merchandise for Indian trade. She will leave at daylight this morning.

THE BEEF CONTRACT.—The contract for supplying H. M. Fleet at Esquimaux with meat, has been awarded to Thos. J. Skinner, Esq.

THE SPRINGS.—A large number of citizens were present at the Police Court yesterday during the examination of John B. Montrose on a charge of destroying the Cochran-Cary fence at the Springs last week. The proceedings were listened to with much attention, and the utmost good feeling and decorum existed. The evidence elicited fully proved that in announcing Mr. Cary to have been one of the grabbers of the people's property, we were correct, and that an unscrupulous set of men among us stand ready to repeat the outrage whenever occasion offers, or the dictates of their sordid minds impel them to the commission of like misdemeanors. By judicious and well-directed efforts, however, their plans will be circumvented by the People, who have too long submitted to be ground down by the iron heel of their oppressors. The general feeling among our citizens to test the question of title to the Springs in a higher court is a gratifying evidence of their law-abiding character. The very idea of mob-violence is scouted; and we feel happy to state that no proceedings, other than an unanimous desire to maintain possession of the property until the matter is finally settled by the courts, are entertained. The question, so far as Mr. Montrose is concerned, will be settled to-day.

ROBBERY AT SALT SPRING ISLAND.—About twenty canoes filled with Northern Indians, on their way from this place to their homes, camped at Salt Spring Island, near Beggs's settlement, on Wednesday last. They prowled about the neighborhood during the day, and at night entered Mr. Beggs's house and stole provisions, blankets, clothing, etc. In the morning they were nowhere to be seen, having decamped before daylight. Complaint was brought to this place, and the gun-boat Forward was dispatched yesterday to look after the rascals.

ANOTHER INDIAN OUTRAGE.—The schooner Laurel started out a week since on an Indian trading trip to the Sound Islands. Some Indians whom they encountered, however, took possession of the vessel, appropriated the goods aboard to their own use, and stripped her of the sails, etc. The men in charge were consequently compelled to return to this port, and are heavy losers through the rascality of their red-skinned customers.

SEIZED.—The swivel-gun, mentioned yesterday as being in the possession of the Northern Indians, was seized yesterday by the police and taken to the barracks. The natives did not seem over and above well pleased at giving up their pet.

FINED.—Charles Durant, who got drunk the evening previous on Humboldt street and "raised Cain" in Martin's grocery-store, was yesterday fined 10s. and 10s. costs, which he paid and was liberated.

King, the man who lost his leg by the explosion of the steamer Fort Yale, some time since, is improving slowly at the Royal Hospital, where he is receiving every attention.

THE STEAMER.—The mail steamer Sonora arrived at San Francisco on the 6th inst. The steamer for this port must then have left on the 7th and will be due to-day.

ARRIVAL OF THE OVERLAND MAIL.—The Overland Mail, per schooner Petrel, Taylor master, arrived at 9 1/2 o'clock last night. Call for your letters to-day.

The steamer Caledonia left for New Westminster yesterday. She had 29 tons of freight and a few passengers.

H. M. gunboat Forward was yesterday dispatched to Salt Spring Island to look after the Indians in that section.

The steamer Cortes left Portland on the 6th for San Francisco.

The steamer Eliza Anderson left yesterday, at 3 o'clock, for ports on the Sound.

A Simile.

EDITOR BRITISH COLONIST.—Since the superior classes still continue to lavish their indignation on the conduct of the water-carriers, and on that meeting of the common laboring classes, which endorsed it, I will offer the public a simile.

As landholder in Victoria, I enjoy a two thousandth share, or thereabouts, in the Church Reserve, the Springs and other public property; and as the Bishop has taken up the Church Reserve, the Attorney General the Springs, and nothing else is left, I have made up my mind (and why not?) to jump the church. In saying this, I wish to do nothing irreverent. I respect public feeling as much as any body, and

"Be it far from me

To treat such things with levity."

I am aware that the church, (like the Reserve and the Springs,) has belonged to the public for a long while; but when I see prominent people setting the example, I do think I have quite as much right as they have, to try and turn an honest penny to account also. Besides, a friend of mine, an old settler, offers, for a handsome consideration, to get me, somehow or other, a title, and as to public opinion, when my private interests, or those of the business I carry on, are concerned, it is quite a different matter.

I intend, therefore, on Saturday, to have the Church door well fenced in and barricaded, taking care at the same time to put up a word about it, or giving any public notice. On Sunday, the fence will have been up exactly one day, and when the congregation arrive at church, and my agent tells them not to enter, that I am in possession, and that they must first go to law, if the sexton and the congregation very naturally and indignantly pull down the fence;—why, the water-carriers did no worse.

DRUGS & MEDICINES.
HEALTH FOR A SHILLING!
Holloway's Pills.
Headaches, Bile, Loss of Appetite, and
Lowness of Spirits.
These Pills require no interruption of business or
pleasure; they act mildly on the bowels, strengthen
the stomach, and promote a healthy action of the
liver, whereby they purify the blood, cleanse the
skin, brace the nerves, and in the most invigorating
tem. They effect a most wonderful change in debili-
tated constitutions, as they create a healthy appetite,
correct indigestion, remove bile, giddiness, head-
aches, and palpitation of the heart.
Weakness and Debility.
In cases of debility, languor, and nervousness gen-
erated by excess of any kind, whether mental or phy-
sical, the effect of these Pills is in the highest degree
bracing, renovating and restorative. They drive
from the system the morbid cause of disease; re-
establish the digestion, regulate all the secretions, brace
the nervous system, raise the patient's spirits, and
bring back the frame to its pristine health and vigor.
They increase the appetite, while they secure perfect
digestion to all ordinary food, and release the invalid
from restraint in diet.
A Word to Females.
There are two periods, especially in Woman's life,
which require for safe passage, judgment and atten-
tion. Irregularity is apt to occur at certain times, and
take place in the foundation of future disease.
These Pills, taken in action, and effective in re-
sult, should be taken at certain periods, and the issue
will be marvellous both to the young and the middle
aged. They prevent nervous disorders, by expelling
all impurities from the system, therefore none should
ever be without them.
Coughs, Colds, and Asthmas.
No medicine will cure colds so quickly as these
Pills, when of long duration or settled on the chest,
or even though it has assumed the first stage of asth-
ma, they may be relied on as a certain and never
failing cure, particularly if the Ointment be well rub-
bed into the chest and throat night and morning. If
this catch the eye of any asthmatic person so bad
as even not able to lie down in bed, let him well use
these two preparations for only a week, and the re-
sult will be startling.
Blood to the Head—Diseases of the Heart.
More persons die suddenly from diseases of the
heart than the unlearned suppose: in such com-
plaints, the bowels should always be kept well open,
as also where there is a tendency of blood to the
head. These celebrated pills purify the blood, and
extraordinary means, and should be taken in copi-
ous doses when such symptoms occur, taking care
not to overload the stomach; by this means all danger
is quickly averted.
Children's Complaints.
It is not generally known, but such is the fact, that
children require medicine often more than their par-
ents. Three-fourths of the children die before they attain
the age of eight years. Let mothers, then, be wise,
and give to their children small doses of these invalu-
able Pills once or twice every week. In such quan-
tities as may act gently upon the system, twice in the
day, and give as a powder in a little water. The gross
humors that are constantly floating about in the
blood of children, the forerunners of so many com-
plaints, will thus be expelled, and the lives of thou-
sands saved and preserved to their parents.
Holloway's Pills are the best remedy known in the
world for the following diseases:
Ague, Dropsy, Inflammation, Sore Throats,
Asthma, Dysentery, Jaundice, Stone and
Bilious Com- Piles, Liver Com- Gravel
plaints, Rheumatism, Gout, Sciatica, Scalds,
Itch of the Skin, FEVERS of all kinds, Lambo- Symptoms
Bowel Com- Fits, Piles, Retention of Tonic-Dou-
plaints, Colic, Head-ache, Stomachic, Urine, Uterine
Constipation, Indigestion, Worms, or King's Evil, Weakness,
Debility, and all kinds of ailments from what-
ever cause.
There is a considerable saving by taking the
larger sizes.
Directions for the guidance of patients in
every disorder are affixed to each Box.
